MINING IN TENNESSEE.

The 13th annual report of the mining department of the state has been issued by Chief Mine Inspector R. A. Shifflet. It is very comprehensive and from it are gleaned the following facts:

The coal production in Tennessee amounted to 4,810,758 short tons, valued at \$6,173,724, or an average price of \$1.28 per ton. The increase in production over 1902 was nearly 14 per cent. The increase in value was 17 per cent. All the coal producing counties show an increase except Anderson, Roane and White. The only important decrease noted was that of Anderson, 141,038 tons. The largest increase was in Marion county, 261,876 tons.

There were only 26 fatal accidents during the year, or a reduction of 200 accidents as compared with 1902 and exactly the same number as for 1901. The average number of employees in and around the coal mines in Tennessee for 1901 amounted to 8,413, in 1903 the average number amounted to 2,260, or an increase of 14.98 per cent.

Preparations are being made for the opening of 28 new mines during 1904, and there are several railways being extended or extensions proposed.

At the close of the year 1903 there were 2,421 coke ovens in Tennessee, of which 1,498 were in blast and 260 in course of construction. The coke product of the state for 1903 amounted 547,109 short tons, having a commercial value of \$1,633,392, or \$3.09 per ton.

From a man up a tree it looks as if the Russian civilization was more to be feared than the Japanese. Talk about the "yellow peril" coming from Japan, why they can give points to civilization on lots of things—education for instance.

The Georgia peach crop will pull down the financial scale in that enterprising state \$5,000,000. Let Tennessee brace herself to make the same record, and let's have more prosperity.

Since the Filipinos are developing such an appetite for dog flesh, why don't some enterprising Americans start dog farms to supply them with nice fat canines?

Ye editor was mistaken for a preacher the other day. Our suspicion that a halo lingers around our head is evidently correct—Sunnyside Sun.

Why can't United States Senators be elected by popular vote, and have all this hot air, row and contention cut out?

A Kansas City preacher urges early marriages and large families. Guess he wants to boom business.

Please assassinate the man who says "Is it hot enough for you?"

Well, how do you like the pike when it stands nose?

Impaired Digestion

May not be all that is meant by dyspepsia now, but it will be if neglected. The uneasiness after eating, fits of nervous headache, sourness of the stomach, and disagreeable belching may not be very bad now, but they will be if the stomach is suffered to grow weaker.

Dyspepsia is such a miserable disease that the tendency to it should be given early attention. This is completely overcome by

Hood's Sarsaparilla

which strengthens the whole digestive system.

THE Nashville negro who gets ten years at hard labor for robbing a boy of 25c is no doubt firmly convinced that the way of the transgressor is hard.

Dowie wants to establish an Eden on earth where there will be no hogs. Poor Dowie.

THE glorious Fourth is next, then elections Nos. 1 and 2. Ye gods! what a program!

THE TARIFF IS A TAX.

The Tariff is a Tax. Who pays it?

Ninety-nine out of every hundred will answer "The Consumer."

Let's see if he does.

A is a farmer who raises only food.

B raises only flax, cotton, wool, &c., but raises no food.

C is a blacksmith who raises no grub.

D is a miner who digs iron, coal, &c.

E builds wagons, machines, &c.

F is a school teacher but raises no feed.

G is a doctor.

H is a preacher.

I, a lawyer.

J, a merchant.

K, a weaver.

L, a shoemaker.

B. C. D. E. F. G. H. I. J. K. and L. all have to eat. If they do not charge enough for their services in their several occupations to pay for their food, clothing, doctor's bills, the education of their children and other incidental expenses, together with their tax they will surely fail.

Either of their tax receipts may be greater than A's and all of them consume but A foots the entire bill. Do you fool farmers catch the idea? Sit right down and think it out if you have a thinker.

If not, get one, or get one of your "gals" to think it out for you. Take your time, there is no hurry, but don't throw away this paper until you get it all inside of your noodle.

At an informal meeting of the boys on the streets one night last week a resolution was passed stating that the public welfare demanded that the "state house" in the rear of S. B. Did you know that J. R. Morgan, the urbane cashier of the Whitwell Savings Bank, is an A1 ball pitcher? He can serve 'em up any way you want 'em, and they wind about as though hard to hit.

The boys got out on the diamond Friday, played all day long, and literally knocked the cover off of the ball. Whitwell has got lots of good ball material, and should get up a rattling good ball team. Get in the game, boys, and form a team to play for the \$10.00 prize offered at Sequachee July 4th, as we understand that arrangements are being made to have two teams play there on that date for a prize for that amount.
